Dear Ms. Dortch:

On January 11, 2022, Scott Deutchman and the undersigned of Google LLC met with Umair Javed of FCC Chairwoman Rosenworcel's Office. We reiterated Google's support of adopting an incumbent-informing capability framework for the 3.45 GHz Service and extending it to the CBRS band.<sup>1</sup> We also urged expeditious, evidentiary-based action by the Commission to make 60 GHz regulations more flexible for innovative, unlicensed, low-power radar applications.<sup>2</sup>

Please do not hesitate to contact me with any questions.

Regards,

Megan Anne Stull  
Senior Counsel
